Mountaineers In Final Game Lose To Portola Nine

Half Dozen Home Runs, Three To a Side, In Tilt

The Mountaineers wound up their baseball season here Sunday in a game described by fans as the best of the year. Although they lost to Portola 14 to 12, after ten innings filled with thrills and a see-saw score, fans and players alike agreed it was a good contest.

Karl Kielhofer pitched the full ten innings and did a creditable job. The 20 hits Portola tallied were scattered for the most part and occasionally ragged support resulted in hits which might have been kept off the score board but all in all the team finished the season with their best performance of the year.

Six home runs featured the game with Giovannoni, Wakefield and Stark hitting over the fence for the locals and Powell, J. Nally and Conant duplicating for Portola. Two runs came in ahead of both Giovannoni and Wakefield and Stark hit his with the bases empty.

Les Davidson led in Truckee's hitting with three for five, while Wakefield and O'Laughlin each connected for three for six. Giovannoni and Ulsheimer each got two for five, and Dugan, Stark and Frates had two for six.

The largest crowd of the season was on hand to witness the close of the season during which the Mountaineers played independent, being on a year's leave from the Placer-Nevada League.

The score:	R	H	E
Portola	14	20	4
Truckee	12	15	6

Guerra, J. Nally and; Conant Kielhofer and Dugan.

Former Truckee Man Wins Award For Action In Korean Engagement

* * * *

Corporal Arthur John Williams, well known here where he resided for two years with the A. L. Davidson family while employed by the Sierra Pacific Power Company, received a noteworthy present on his 26th birthdate from Uncle Sam, when he was awarded the Bronze Star for "valor against an armed enemy of the United States."

Williams, whose home is at Roseville, is a forward observer in the army and it was upon a return from a particularly hazardous mission with Lieut. Dick Ellsworth and Cpl. Charles Pease that the citations were read for all three men.

The citation was for heroism in action during the battle of the Soyang River in May and reads as follows:

"During the attack he volunteered to relay commands to friendly mortars by voice, and left the safety of his foxhole to take a position exposed to intense enemy fire. He dauntlessly remained at this extremely hazardous post, aiding the mortars to inflict heavy casualties on Communist forces until the attack was repulsed."

The corporal is in the East Korean front and wrote friends here that while he was more than gratified for the award, there are so many young men in the war zone who are also deserving that he felt very humble.

His parents are Mr. and Mrs. A. J. Williams of Roseville.

Williams was one of the stars on the Truckee-Tahoe baseball team for two years and his many friends here will join in extending congratulations and best luck.

COOK'S PLUMBING NOW IN NEW HOME SOUTH OF TRACKS

After months of planning and work, Mr. and Mrs. Arthur Cook are now operating their Cook's Plumbing business in its own quarters.

The attractive new show room and shop is located in the former Nevada Hotel building on the south west corner of Bridge and River Streets. The front of the building was extended and the entire face is taken up with large display windows. A sidewalk and curb in front of the place add greatly to its appearance.

Immediately back of the show room, wherein are displayed the numerous fixtures and products handled by the local plumber, is the stock room and shop. The balance of the remodeled and renovated building is occupied by the Cook family living quarters.

David Rogers has joined the staff as an office man and is conducting his Jeep and Henry J agency from there.

"We have long wanted to have adequate space for our business," Cook said, "and we are happy in our new location. We invite our customers and neighbors to drop in and see our new shop and store."

Sun Beams

by Walter M. Barrett

Officers are renewing their plea that drivers of cars take a little more time, particularly in the residential sections of Truckee where children may be playing. Children on skates or bicycles often do not have complete control and all youngsters are inclined to be careless when they are playing. It is squarely up to the driver to avoid hitting them and cars traveling around corners or even on straight streets are hard to stop at speeds they are presently maintaining. The 30 or 40 feet they require to stop even at the most moderate pace may not be sufficient to avoid a tragic accident, so take your time and always be on the alert for a child dashing into the path of your car.

* * * *

Local forest service officials have a haunted look these days as reports of fires in the forests in every direction continue to bear evidence of the dryness of the region. August and September are the most hazardous months for fires in the year and extreme caution is demanded. Only you can prevent a forest fire.

NAME IS CHANGED AT SPORTSMAN BY NEW PEOPLE

Mr. and Mrs. H. A. Schmidt of Yuba City have leased the Sportsman at Truckee Resort and have reopened the establishment under the name of Smitty's.

The new managers have had years of experience in the food business, having operated Smitty's Fountain Lunch at Yuba City for the past seven years. They leased their place in the valley to take over the local cafe.

The lounge and restaurant were closed for several days while the new proprietors had the interior completely renovated and redecorated. They plan to continue improvements and invite everyone to drop in and get acquainted.

Schmidt brought his chef, Ross Barry, and his hostess, Miss Viola Burgin, with him and they are permanently established in the local enterprise. Smitty's will specialize in steaks, sea foods, trout, chicken and short orders, and the cocktail lounge will serve beverages.

"We sincerely like this area and want to make our home here," Schmidt said.

Floriston Bridge Again Topic For County Discussion

Matter Is Laid Over Until August 20 Meeting Of Board

A delegation representing the property owners at Floriston failed to impress the Nevada County board of supervisors with their plea for a new bridge to replace the one washed out by last winter's flood and the matter, after two hours of discussion, was laid over until the August 20 meeting.

T. L. Chamberlain, Auburn attorney, represented the Floriston delegation and said his clients wish to know what help might be expected from the county. He said a logging concern has built a road within two miles of the site and suggested that this might be taken over by the county and improved. Because of the soil condition, the board felt this not advisable but countered with a proposal that if the landowners will build a bridge, the county might consider providing a road leading to it from Highway 40.

No assurances could be given the delegation that the 50 per cent reduction in taxes granted this year by Assessor William Tamblyn could be continued. The group had hinted that if such assurance was given they might take steps to reconstruct the span.

Chamberlain said 29 persons have moved from the subdivision since the washout left only a foot bridge egress. This cut from the original 25 families, he said, makes it difficult for the remaining ones to finance a bridge.

WOMEN ENJOY ARRANGER SHOW AT AAUW TEA

Tuesday at Cal-Neva the women around the Tahoe-Truckee area and those from more distant places who took time from their routine were well rewarded by the artistic arrangements created by Naida Gilmore Hayes at the AAUW Fellowship Tea. The speaker was introduced by Mrs. Raymond Scott, chairman.

After a few words which gave even the rank amateur a feeling for form, color, design and texture, Mrs. Hayes explained her technique of arranging as she demonstrated with countless "props" she had carefully gathered. Most of the dried weeds, pieces of wood rocks, moss and leaves used were selected as they are easily obtainable within a radius of 25 miles.

One of the more effective works of art was a gray baby manazanita tree on a slate rock with a little gray badger nestling at its trunk. Any figurines used were always in their natural setting and corresponded with their harmonious surroundings.

Beautiful pottery plates and bowls as well as handmade copper sheets also served as foundations for these fascinating embodiments. Sometimes a mere piece of wood was glamorized or transformed into a "thing of beauty."

Among the spectators was Anna Hong Rutt, state chairman of judging flower arrangements schools in Louisiana. At this year's convention in Missoula, Montana, she received the National Council award for literary achievement. She and her sister, Alice Westbrook, have been the guests of Mrs. N. F. Dolley in Truckee.

STATE FAIR BOOTH THIS YEAR WILL HIGHLIGHT GOLD

Gold from Sierra slopes where red-shirted miners toiled in Gold Rush days, will be featured in the Nevada County exhibit at the California State Fair from August 30 through September 9.

Leonard G. Lageson, county agricultural commissioner, is gathering choice quartz specimens from the famous Idaho-Maryland and North Star mines which will be combined with historic nuggets, found in pioneer days, to form a huge display of gold.

Among the nuggets will be the "Doc Jones Nugget" which is owned by George Jones, descendant of a pioneer family which came to California during the gold rush. The nugget contains plenty of gold but is more valuable because it is considered a rare specimen by mining men.

Lageson will show two photo murals of the famous mines, one of which, the North Star, is down 11,000 feet and is one of the deepest in the world. The quartz and nuggets will be displayed in front of them murals and the quartz will be from ore mined this year.

On the north side of the exhibit will be a display of timber from logs to finished timber. Apples, which are noted for their flavor and which are grown extensively in the county's foothills, will complete the display.

The Nevada County exhibit will be located in the north end, east side, of the giant Counties Building which this year will hold the displays of 38 counties and many foreign nations.

COUNTY TAX PENCE YIELD RISES 40 PERCENT IN DECADE

Each penny of county-wide property tax rate levied by Nevada County on 1950-51 valuations meant a levy of $2,518, based on 1950-51 valuations of $25,181,090, California Taxpayers' Association says.

If 1951-52 taxable valuation of property in the county is greater than for 1950-51, then each cent of county-wide tax rate will result in a still greater levy, the association pointed out.

The same thing holds true for the tax rates of cities, school districts and special districts.

Each sent of county-wide tax rate for 1941-42 meant a levy of $1,816 in the county for that year.

"Tax rates in California are levied by cents per $100 of taxable valuation, rather than by dollars per $1,000," the association said, "and tax rates creep upward by cents—each of them seemingly a small thing in itself—but all contributing to a formidable tax bill in California.

"If taxes are to be held down, budgets must be kept under control. Valuations and tax rates are just the end result of how much money must be raised—which depends on how much is budgeted."

Yes, and don't forget, cook electrically . . . and keep cool.

SUMMIT SCENE

by FRAN COUILLARD

Ed Wiley of the beaches and parks commission spent a few hours with us the other day elucidating further on the "tie up" that prevents the further survey, development and exploitation of the Emigrant Trail, that 60 mile avenue through our area that would mean to us what the Boardwalk does to Atlantic City or Market Street to San Francisco. The hands of the B&P commission are tied for the $8500 needed for the further survey of the avenue was slashed from the state funds before the budget went to our legislature. In the brief time surveyors worked last year, 16.8 miles were marked. A great deal of research still must be done no the lower end of the proposed trail. To Wiley and Irene and Bill Paden of Alameda, much credit must be given for the research work already accomplished. To the state beaches and parks commission, whose five pages of maps lay rolled up on our desk, whose tremendous report which in itself is an historical tome and was prepared for presentation to the legislature for money to carry on, we say that we weep with you that this dream of a new baby for the state park system has to be temporarily shelved.

To historians and Californiana fiends: The old Reed home (domicile of one of the segments of the famed Donner Party) near San Luis Obispo was recently offered for sale by the heirs. The attorney for the group, in going through old papers and documents which had been thrown in a pile for burning, came across some old diarys and maps that absolutely authenticate certain dubous areas of the original trail. These were turned over to Dr. Carroll Hall, curator of Sutter's Fort in Sacramento. With this information in hand, plus other material unearthed from the Huntington Library in southern California, Wiley and the Padens will again spend their own time and vacation in the area known as Indian Springs, near Cisco Grove, to beat out another portion of the trail whose location has been vague by historical reports.

The best thing we can think of doing at present is preparing a petition, begging the people of the area to sign it and see that it gets in the hands of Senator Johnson and Assemblyman Lindsay so that money can be appropriated for this important project. So if you see us standing on the corner waving a piece of paper in one hand and a ball point in the other, stop and sgn, will you? Incidentally, the money that has thus far been expended was drawn from the regular funds of the beaches and parks division—and, we repeat, there isn't any more.

Soda Springs Hotel keeps on with its surprise packages too. Saturday night's Chinese dinner was out of this world and if you don't believe us, ask Mr. and Mrs. Nat Quilici from Truckee, whom we saw at a nearby table. Understand every Saturday night is Chinese dinner night so we get out our coolie hat and scrub our clogs to enjoy more of this kind of food. And to keep the ball rolling so that we won't run out of surprises see a Hammond Organ in the cocktail lounge on which reposes a sign reading "Harvey Jackson at the Piano and Organ." Harvey, formerly at the Sierra Lodge at Lake Tahoe, has a host of admirers and, we understand, will entertain, starting Wednesday, at the cocktail hour and in the evening.

Dr. Ralph and Helen Reynolds of Soda Springs took their guests, which numbered 18, to Ice Lakes for Bill Rutherford's Sunday barbecue. Bud and Barbara Zorich return from a short vacation to San Francisco. Ellen Flynn, our perennial guest, came to visit us last week end with friend Florence Pierson, tho' we saw but little of them, what with their cocktailing at the Jerry Jensens, their "Sugarbowling" with Dennis and Muriel Jones and the Gordon Hooleys, their coffeeing with Betty Horak, and their Renoing. The Harry Beyers from Los Altos up to spend a few days at their Soda Springs cabin; the Bourdets, with daughters Penny and Pat, from San Mateo, ditto. The Bill Parrotts take off for a week from this mountain's coolness while little Nancy Pratt returns from her summer's vacation at grandma's in Oregon to attend the Donner Trail School, which opened last Monday. School teacher Pat Adams also returns with a new Chevrolet station wagon and again takes up her abode at Trailsyde Lodge whilst she teaches school.

Further down the mountain Bert Bacon of Cisco Grove store storms and fumes while he awaits the healing of a broken foot bone, derived from slipping off his roof.

Bob Blackford Jr., the Paul Aharts, the Chandlers and such ship their sheep from the corrals in the Sherritt meadows, trucking them n these times.

Elmo Moriano, wearing a funny little crown on which was emblazoned "King" and a saucer-sized pin on his shirt which yelled "Dewey for President" wasn't crazy. He was merely the unsuspecting recipient of a birthday surprise party at which all presents were "something you were going to throw away anyway." Thirty invitees met at the Soda Springs Hotel for organization and then traveled en masse to Beacon Hill Sunday evening to shout "Happy Birthday" to an utterly flabbergasted little guy. Jeannie, the little woman, had successfully hidden away a fully prepared barbecue in the recesses of Beacon Hill Lodge. Day Tschopp and Helen McCarty ovened the cakes for the event while Mrs. Lois Hack made and hid the canape trays. Rust bolts in a BA sack, pills, mouse traps and such were hidden 'neath beautiful wrappings and piled on a table as "presents." Those who couldn't meet at the earlier hour set, crowded in afterwards and in time see Elmo unwrap his "gifts". A heck of a swell time was had by all who attended and a big napkin was used to wipe away the tears of Elmo whos laughed so hard that the ducts opened wide.

SWANEE'S TAHOE LETTER

PHONE TAHOE CITY 39W
Tahoe City, August 5

Dear Tahoeites:

Another week has rolled around nad what a nice week it has been with warm days and nights a bit cooler than usual. Our highways are crowded with cars from every state in the union and several foreign countries too, but so far very few accidents have been reported. A Mr. Ludts of Al Tahoe had bad luck on Saturday night when his pickup truck went down an embankment and was badly damaged. He was crowded off the road just about dusk but fortunately escapjed injury himself.

Speaking of driving reminds me of the case of Ralph F. Brett of Los Angeles who went speeding through Tahoe City at a 40 MPH clip on July 9. Lots of people violate our 25 MPH zone in town, only Brett happened to be seen by Patrolman Tom Sheehan, who gave him a citation. In last week's mail said speeder paid a $35 fine leveled by Justice of the Peace C. W. Vernon before whom his hearing was held.

Bishop Noel Porter of the Outdoor Chapel reports 426 worshipers were present at last Sunday's 11 a.m. services with 20 of these coming in a group from Galt. They later enjoyed a picnic near St. Nicholas Chapel which adjoins the chapel grounds. The guest book at the Outdoor Chapel now records the names of visitors from South Africa, South America, Hawaii, Canada, Denmark, the British Isles and the Isle of Man. Bishop Porter this week announced that plans are underway to provide winter services for Tahoeites here at least twice a month. Also a program is being worked out whereby young people from all over northern California may come to the chapel grounds for youth conferences each summer, an interesting and enjoyable time promised to all. Additional parking space will be provided next year at the chapel grounds for the ever increasing congregation which attends Sunday services.

Mrs. Jeannette Mitchell today (Sunday) received word that one of her favorite aunts, Mrs. G. W Welch of Alhambra, is seriously ill in a southern hospital so on Monday she left with their son Dale and will motor down to be at her bedside. Over the weekend a nephew, Darryl Mitchell, 11, accompanied Imon home for his first visit to Lake Tahoe. His parents, Mr. and Mrs. Clyman Mitchell of Stillwell, Oklahoma, are visiting Imon's parents, the Leonard Mitchells of Sutter, for several weeks.

The new library which was given to Tahoe City by Carl Bechdolt Sr. as a memorial to his late wife, Julia, was opened to the public on Wednesday last, remaining open all day and evening with Mrs. Ruth Hoffman, librarian, on hand to answer questions. I was very favorably impressed with the new building and found the room spacious and light, with plenty of empty shelves to welcome new volumes. Mrs. Hoffman reports Miss Jane Cotton, Placer County librarian, will make frequent trps to the lake between now and winter bringing in new books for local readers. The dedication services for the library will be held when the bronze plaque to be placed on the building has been completed. An orchid to Carl Sr. who has created a lasting memorial for both his beloved late wife . . . and himself.

At Tahoe for week's vacation are Mrs. Dot Peterson, formerly employed at the A. M. Henry home in Tahoe City some years ago, and her friend, Emily Flinger. Both girls are employed at the Alameda Naval Center.

Mrs. Marie Henry of Tahoe City urges local residents to watch the Sierra Sun for further information on the Placer County TB X-Ray mobile unit which will visit this area the latter part of August. It will be stationed one full day in Tahoe City and one day in Kings Beach. Just who will sponsor the unit this year has not yet been determined. Watch for the dates and have your chest examined . . . free.

Recent guests at the summer home of Dr. and Mrs. Lee Hand of Timberland were Mr. and Mrs. H. Griffith of San Mateo; Mrs. Hand's sister, Mrs. L. Richardson of Los Angeles, and Mrs. Frank Hand of San Francisco. Houseguests over the past weekend included Mr. and Mrs. R. Abrahamson of San Francisco and the Hands' daughter, Marilyn, and a party of friends from Stanford University.

Leave you for another week with a cheery adios to one and all. As ever, Swanee.

Wilson Kin Visit Lake From Virginia Home

TAHOE CITY— First-time visitors to the shores of Lake Tahoe for three days last week were Mr. and Mrs. Paul Critchett and Miss Helen Dobbyn, all of Arlington, Virginia. Critchett is a brother of Mrs. Ivan Wilson of Lake Forest and had not seen her nor her family for eight years. He is employed in the personnel division of the Navy Department at Washington, D. C., having taken the position shortly after graduating from George Washington University in the nation's capital last June.

The visitors enjoyed while here a family picnic party at Inspiration Point, Emerald Bay, and an afternoon of swimming at Camp Richardson, the Wilsons and their children, Carol and Douglas, joining the party.

The trio left on Friday to visit his parents, Rev. and Mrs. Carl Critchett, and his sister and family Mr. and Mrs. George Youngberg and son, all of Santa Ana. They will visit at the home of her brother in Colma before returning home.

TAHOE BURGLARY ENDS IN PRISON TERMS FOR THREE

AUBURN— Superior Judge L. L. Sparks last week sentenced Lester B. Manz and Earl W. Ward to San Quentin on a charge of receiving stolen property. A more serious charge of burglary was dismissed after the plea of guilty on the other charge was disposed of.

Calvin Morris drew six months in the Placer County jail on the same charge.

All three had been involved in the burglary of the Tahoe City golf course last month. They were apperhended with much of the $3,000 loot in Salt Lake City and appeared in superior court after preliminary hearings before Justice of the Peace C. W. Vernon at Tahoe City.

Dan Higgins, Placer County public defender, represented the accused while Lee Propp, assistant district attorney, handled the prosecution.

The two sent to San Quentin were given sentences prescribed by law and the length of their stay in the penitentiary will be determined by the Adulty Authority.

DRUNK DRIVING IN STATE THIS YEAR ON SHARP INCLINE

SACRAMENTO— The California Highway Patrol arrested 3,819 persons for drunk driving during the first six months of the year, an increase of 744 arrests, or 24.19 per cent, over the 3,075 drivers cited for that offense in the same period of 1950, it was announced this week.

Drunk driving is one of the major causes of both fatal and injury accidents, according to the patrol Commissioner Clifford E. Peterson pointed out that last year drivers who had been drinking were involved in 516 fatal accidents and 12,195 other mishaps in which persons were injured. Those figures, he said, represent more that 19 per cent of the fatal and injury accidents that occurred in California in 1950.

Everyone over sixteen years old, except members of the armed services, must purchase a license to fish in California, whether in salt or fresh water.

Two Fined for Set Lines At Webber Lake

Randy Carlson, Nevada City, paid a $75 fine in Sierraville justice court for fishing with a set line in Webber Lake and for possessing unstamped deer meat. Sally Mastolier, Nevada City, was fined $25 on a set-line charge. Both were arrested by Warden Ed Powell.

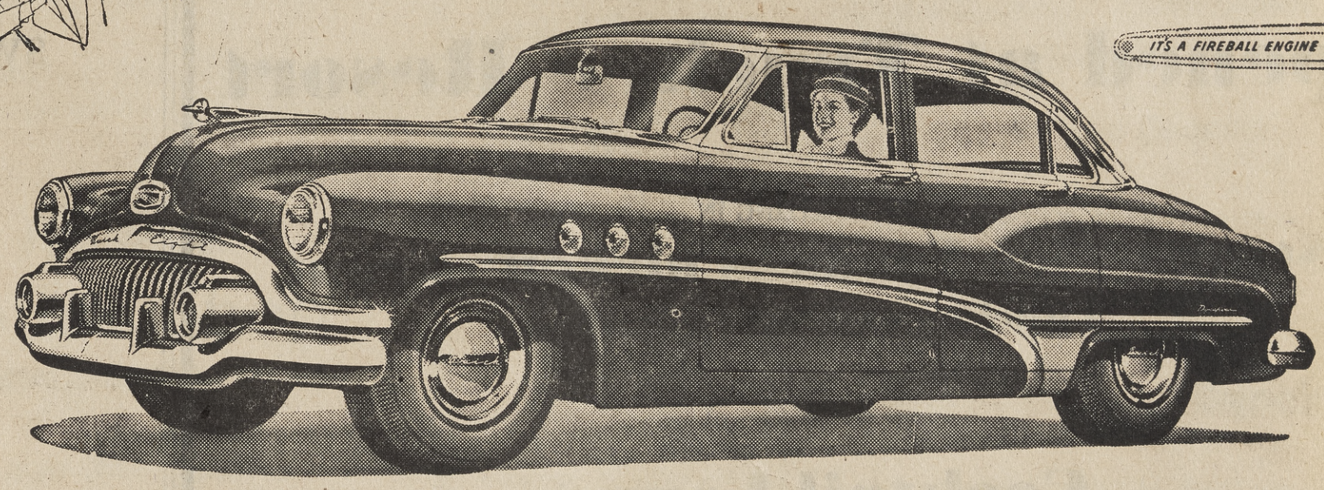
May we suggest a Sitting?



No doubt about it—you'll make a mighty handsome picture in a strapping new '51 Buick.

But it isn't the way you look, but the way you feel that's really important.

We'd like you to discover a Buick's ease and comfort, a Buick's power and performance, a Buick's steadiness and control—just to see if maybe you *have* been missing a travel treat.

We'd like you to discover what a valve-in-head engine, as Buick builds it—gingered with Fireball combustion—can mean in pulse-pounding thrill and in big miles-per-gallon figures.

We'd like you to learn what coil springs on all four wheels—not just in front—can do in the matter of smoothing a rough road and keeping you on an ever-level keel.

We'd like you to see what generous roadweight and a rigid torque-tube mean in solid steadiness of ride—what Dynaflow Drive* does for you in downright comfort and convenience—what a breeze it is to handle so big and roomy and impressive a car.

Most of all, we'd like you to note the easy-to-take price tags our cars wear—what a whale of a lot more automobile you get for your money in today's Buicks than you'll get elsewhere.

So—come in for a sitting soon, won't you? Whether you try a SPECIAL, SUPER or ROADMASTER, you'll find it the top buy in its field—and a beauty from any angle.

Equipment, accessories, trim and models are subject to change without notice.

HOMEWOOD— Dr. O. C. Railsback of the Woodland Clinic spoke before the Tahoe City Rotary Club at its weekly meeting at Homewood Resort on Tuesday. His topic was on early California medicine and doctors' procedure.

The doctor's talk was very much appreciated by the largest turnout on record of the club. There were 91 in attendance, visiting Rotarians coming from all parts of California and from Arizona, Nevada and Colorado.

WARNS MOTORISTS ON THROWING SMOKING REMAINS

The thoughtless discarding of cigars, cigarettes and matches from moving vehicles on mountain and rural highways is a definite fire hazard and will not be tolerated, Patrolman William Gautsche of the Truckee area California Highway Patrol office, reminds motorists again.

"It has been established that most forest fires are caused by carelessness," Gautsche said. "During the dry summer season the fire hazard is always present and a burning cigarette or cigar may cause a fire that will devastate hundreds of acres."

He pointed out that the vehicle code prohibits throwing from vehicles any lighted or burning substances except in built-up urban areas.

LOAD LIMITS ARE PROPOSED ON AREA SPANS

J. F. O'Connor, Nevada County road commissioner, expects soon to receive final state highway division recommendations to be posted on 14 bridges in the eastern and northern parts of the county. Load limits have already been posted and adopted for 22 other county bridges.

If earlier practice is followed, the state's recommendations will follow preliminary ones made June 28. Those proposed at that time include the following in the east end of the county:

Truckee River at Boca: 13 tons vehicle, 18 tons semi-trailer combination, 21 tons truck and full trailer.

Truckee River, Brockway cutoff: 6 tons vehicle, 10 tons truck and full trailer or semi-trailer combination; 10 miles per hour on bridge.

Trout Creek Viaduct: 3 tons gross load.

Donner Creek, Front Street, and Poorman Creek, good for legal loads.

Little Truckee River, Boca Road: 17 tons vehicle, 28 tons semi-trailer combination, 30 tons truck and full trailer.

T. W. Rodgers, Charles Sweet of the division of highways; Supervisor H. G. Loehr and O'Connor examined the bridge across the river on the cutoff last week to see what must be done to strengthen it for logging traffic. O'Connor reports that strengthening the present span appears impractical and thought a girder-type structure should replace the present overhead truss when funds become available.

CHAMBERS URGES OBSERVANCE OF STATE WATER LAW

Dave Chambers, who represents the Coast Guard at Lake Tahoe, has called attention to Section 267, Harbors and Navigation Code of the State of California, which reads as follows:

"Operation of power boat at more than five nautical miles per hour in certain areas prohibited: Application of section. Every boat owner, operator, or person in command of any power boat, is guilty of a misdemeanor who operates it or permits it to be operated in excess of five nautical miles per hour in any of the following areas:

(3) Way or landing float to which boats are made fast or which is used for the embarkation or discharge of passengers.

The provisions of this section shall apply to all waters which are in fact navigable regardless of whether they are declared navigable by this code."

In order that accidents may be averted, Chambers urges that this code be observed rigidly.

TAHOE CITY MEN TO CONTEST ZONING CHARGES

RENO— Oliver M. and Charles H. Hendrickson of Tahoe City are at liberty on $50 bail each on a charge of operating illegally a borrow gravel pit in ground zoned for residential use in the Crystal Bay area of Lake Tahoe.

The charge was brought by H. E. McCoskey of Crystal Bay. The men's trial has been set in justice court for September 12.

Raymond Smith, head of the Washoe County planning commisson, says the land is in a single family residential zone.

The Hendrickson brothers have been moving gravel from the pit for two years and contend there is provision in their deed permitting them to do so until it is determined by the Crystal Bay Park Corporation that the property is more suitable as a residential building site.

Brown Stops Equalizing Of Public Utility Tax

SAN FRANCISCO— State Attorney General Edmund G. Brown has ruled that "equalization of public utlities tax assessments, or reducing them beyond present values, must be postponed for two years."

He held that the Hulse bill, signed by Governor Earl Warren on July 16, postponed for that period the operation of a 1949 law which provided for a tax formula to equalize public utility assessments with private property assessments, which are generally less.

The 1949 act said the law should take effect September 2, 1950, and would become operative with the 1951 assessmenest.

County officials have stated the proposed "equalization" would shift $20 miliion in taxes from the utilities to the general taxpayers.

He urged merchants to be especially wary of strangers offering checks, particularly strangers who do not offer positive identification. He emphasized that this type of criminal can be very resourceful, convincing and persuasive.
